**1. Read the text and answer the questions. Circle the correct answer.**

GREEN

Green is a beautiful colour! In nature, the grass that you walk on is green and the leaves that you see on trees are usually green. Most of the plants that you see are green too! Frogs are green and many grasshoppers are green too. Turtles are different shades of green.

Did you know that you can make green paint by mixing blue and yellow? Because you can make green by mixing two primary colours, it is called a secondary colour. Green is also the name used to describe the movement to make products that do not harm the Earth. Green products are often made from recycled materials or those that are safe to throw out in the trash.

1) Green is...

- A. a primary colour.
- B. a secondary colour.**
- C. a kind of plant.
- D. a type of kite.

2) Turtles are...

- A. not found in nature.
- B. different shades of green.**
- C. not green.
- D. green products.

3) Which of the following might be an example of a green product?

- A. a plastic bottle that can be recycled**
- B. a plastic bottle that can not be recycled
- C. a frog
- D. a big truck

4) According to the reading, which is green?

- A. a mushroom
- B. a frog**
- C. a primary colour
- D. a bat

5) What is a green product?

- A. one that is safe for Earth**
- B. one that is made by mixing colours
- C. one that is made from grass
- D. one that is fun
